# What is CBD?

Cannabidiol, CBD, is one of over 113 active cannabinoid chemicals in the hemp plant. CBD, unlike THC, does not produce euphoria or intoxication. CBD targets specific receptors in brain cells & the body. There are both physical & mental benefits with the use of CBD products.

All of our hemp is Industrial Hemp Certified, organically grown and sourced from nutrient abundant soils in the USA to ensure a medicinally rich CBD product.

We use a solvent-free CO<sup>2</sup> extraction process to produce the highest grade CBD that has NO harsh chemicals, NO pesticides, NO metals and is non-GMO.

Our farms are fully compliant with the State Department of Agriculture regulations.
